Foreword by the MEC

Mr Lebogang Maile

MEC of Finance and Economic Development

The 2023/24 Annual Report reflects the work that the Gauteng Provincial Treasury (GPT) has done to implement its mandate of providing leadership to provincial departments, entities as well as local government in the management of public finances. This document is therefore an important aspect of public accountability as we finalise critical deliverables that were identified at the beginning of this political term of office.

As GPT, our mandate is summarised in the following outcomes which are aligned with the provincial government's blueprint, the Growing Gauteng Together, Vision 2030 Plan:

- Enhanced sound finances in the province.
- Increased compliance with legislated prescripts.
- Sustainable local government finances.
- Reduced youth unemployment.

In the year under review, the department implemented the Revenue Enhancement Strategy which focused on maximising revenue collection to resource provincial priorities within a challenging economic and fiscal environment.

As a result of the initiatives implemented through this strategy, we reported an over collection of 14% of provincial own revenue in the 2023/24 financial year. While own revenue accounts for only 5% of the provincial budget, these resources go a long way in supplementing the funding of key priorities including infrastructure maintenance and development, and the creation of employment opportunities.

We have made significant strides in our concerted efforts to establish both the state-owned pharmaceutical company and the state-owned bank

The development of business case for the state-owned pharmaceutical company has started. The proposed solution will address, amongst others, institutional arrangements, supply chain management, medicine procurement, facilities, distribution of medicines to the Provincial Healthcare facilities, medicines inventory and dispensary to members of the public. This is in line with our priority to ensure quality, universal basic healthcare for the residents of Gauteng, in line with the vision of the National Health Insurance that has since been signed into law.

The advisory panel continues to consult various industry stakeholders from both the public and private sectors, including the Gauteng Department of Health.

On the state-owned bank, as at the end of the current financial, the process of sourcing a Transactional Advisor is ongoing. In recognising the significance of a state-owned provincial bank, we also recognise the importance of acting within the ambits of the law. Thus, we are intentional about adhering to the relevant legal and legislative frameworks that will guide the process and ensure progressive outcomes.

Timeous payment to suppliers is one of the key priorities of the provincial government. This ensures that government honours its obligation of paying for goods and services received and enable particularly Small, Medium and Micro Enterprises (SMME) suppliers to maintain a healthy cash flow. This is essential for the sustainability of their businesses, and the resultant potential job creation. The Gauteng Provincial Government recognises the crucial role that SMMEs play in the growth and development of our provincial economy and is determined to create a conducive environment for businesses in the province, including in townships, informal settlements and hostels. This Annual Report shows that in the period under review, the department paid 100% of valid invoices within 30 days.

In addition, the department has maximised available resources to ensure the funding of sustainable projects ranging from entrepreneurial support to infrastructure development. All this has been made possible by the dedicated management and leadership of the department and its entities, which is in the frontline of good governance.

Mr. Lebogang Maile
MEC of Finance and Economic Development

Report of the Accounting Officer

Ms Ncumisa Mnyani

Head of Department: Gauteng Provincial Treasury

Overview of the Operations of the Department

The financial year, 2023/24, was the final year of the 6th Administration. It was a year of consolidating efforts to ensure that government deliver on the mandate of serving the public better by delivering quality basic services to communities in Gauteng. The Department achieved 93% of planned targets. This entails supporting departments to implement the Five Elevated Priorities, which are as follows:

- Economic recovery and reconstruction
- Strengthen the battle against crime, corruption, vandalism, and overcoming lawlessness.
- Changing the living conditions in townships, informal settlements and hostels (TISH).
- Prioritisation of the health and wellness of people; and
- Strengthening the capacity of the state.

The department has formulated its own four key priority outcomes that are aligned to the priorities of GPG as captured on the GGT Plan and these priorities are as follows:

- Enhanced sound finances in the province
- Increased compliance with legislated prescripts
- Sustainable local government finances
- Reduced youth unemployment

This was done while continuing to ensure that Gauteng Provincial Government records significant progress towards the realization of Growing Gauteng Together, Vision 2030 plan. To support departments and municipalities effectively, GPT needed, amongst other things, to intensify implementation of the following deliverables outlined in our strategic plan:

- Improve fiscal management and increased compliance that promotes clean governance and accountability.
- Implement cost cutting practices on cost containment items through budget formulation and by increasing efficiency, effectiveness and productivity gains and provide assurance on the economic and efficient utilisation of state funds.
- Promote and enforce transparency and effective Supply Chain Management in the province and enhance and protect organisational value.
- Promote better planning and budgeting resulting in an integrated, transparent, and credible planning framework to fund key priorities of the GGT 2030.
- Implement the optimisation of existing revenue sources, and explore new sources in line with the Own Revenue Enhancement Strategy
- Be proactive in providing oversight and support to municipalities; and
- Improve audit outcomes and strengthen internal controls throughout the province and provide assurance through the implementation of internal audits.

Performance against these priorities is outlined below:

Enhanced sound finances in the province

This outcome focusses on three key areas which includes improving fiscal management and increased compliance that promotes clean governance and accountability; integrating and synergising budget and planning processes; and improving revenue collection. In ensuring sound finances in the province, the Department tabled the spatially referenced MTEF budget together with the socio-economic review and outlook for the province (SERO). The optimisation and diversification of own revenue collection is critical in augmenting the equitable share and conditional grant funding allocations that the Province receives. The Department continued the implementation of the Enhanced Revenue Strategy and has identified projects that have potential to open up new revenue streams and leveraged on technology to increase revenue collection, thus in the 2023/24 Provincial own revenue collection exceeded the target of 7.5% with an achievement of 14% from over collection by departments such as GDE, GDARD and GPT mainly due to interest earned on positive provincial balances as a result of slow spending from cost containment.

To conserve funds for goods and services and capital investment and to ensure that the crowding out by compensation of employees of existing resources does not materialise, continuous monitoring of this expenditure has resulted in the wage bill being at 57% against the high target of 60%. In ensuring that cash requisitions by GPG departments remain within available cash resources and to immunize the province from liquidity exposure, cash disbursements to departments did not exceed appropriated funds.

Increased compliance with legislated prescripts

The focus of this outcome is to promote and enforce transparency and effective Supply Chain Management (SCM) in the province. This is done to promote and encourage a culture of good governance in the province through independent, objective assurance and consulting services that add value to the operations of GPG. Further, this is achieved through the assessment of governance risk management and controls to ensure compliance with legislated prescripts. To improve compliance with legislated prescripts the department continued to implement SCM compliance assessments for all 14 departments and for 8 entities and further produced SCM compliance registers for those departments and entities.

GPT improved internal controls, governance and risk management processes in GPG through the implementation of internal audits and 93% of reports were issued by the end of financial year. All action plans for internal audit findings for departments and entities were tracked. The department ensured that 19 Audit Committee approved audit plans were issued to departments and trading entities and 100% of Auditor General's management letter findings were followed up through a follow-up audit.

The Department has conducted 8 training workshops for township-based suppliers. The training offered to township-based enterprises equips them with the necessary skills to be able to increase their participation in GPG tender processes. SMMEs are also trained on how to register on the Central Supplier Database and how they can access opportunities offered in GPG. In ensuring compliance to 30 days payment policy, GPT monitors departments compliance to 30 days payments by producing the reports quarterly including spending reports by township suppliers. Further, GPT also monitored the implementation of open tender process and quarterly reports were produced including reports on monitoring of procurement plans. In supporting payment of suppliers on time, for the financial year the department ensured that 99.7% of supplier invoices are submitted electronically against the target of 90%. The GPT also managed to pay 100% of valid invoices received within 30 days.

Departments and entities expenditure was monitored during the financial year and in line with the requirements for in year monitoring (IYM) of financial performance, the Department produced consolidated IYM Reports for departments and individual entities IYMs and submitted to National Treasury in line with prescribed timeframes. The department conducted the socio-economic review and outlook for the Province and produced the SERO report which was tabled at Legislature with the Main Budget. Similarly, the MTBPS was also tabled together with the adjustment budget at Legislature.

Sustainable local government finances

The key focus for this outcome is to ensure capacity building and capability in strengthening financial management practices of municipalities. To achieve this outcome, quarterly MFMA assessments were conducted on the 8 delegated municipalities to determine MFMA compliance by the delegated municipalities and identify areas of improvement. Further to the MFMA assessments, budget assessments were conducted on draft, approved and adjustment budgets to drive implementation of funded budgets in local municipalities. Seventeen structured and targeted training initiatives for delegated municipalities in Gauteng were also conducted, this was essential in ensuring that municipalities are capacitated on best asset management practices. The Department held intergovernmental relations (IGR) engagements with relevant stakeholders and as result 71 engagements were conducted

in the 2023/24 financial year, the engagements were aimed at addressing the debt and grant management challenges faced by municipalities.

Reduced youth unemployment

The key focus of this outcome is on providing work experience and skills to the unemployed graduates to afford them an opportunity to be employable and thus contributing to employment. To achieve this outcome, the department has adopted a multipronged approach to youth development (internship/learnership) spanning several key programmes, namely, Supply Chain Management, Internal Audit, Corporate Services, Financial Governance and Municipal Financial Governance. The focus of youth development programmes is to expose the graduates to real-time, hands-on work experience to be better prepared for the labour market and to acquire professional accounting and audit related qualifications. In the year under review, a total of 93 youth were placed by the department on these development programmes.

In line with the elevated priorities pronounced by the Premier in the February 2023 SOPA, the department has made the following progress:

GPT has made progress on the establishment of State-Owned Bank with the finalisation of legal due diligence report. Further, a business case is being developed to stipulate how Gauteng Government would transact with the National Post Office once it is operating as a fully-fledged national state bank. Similar to state-owned bank, legal due diligence report was produced on the establishment of a pharmaceutical company. A Transactional Advisor (TA) was appointed and commenced with the development of a business case to assess the financial viability and feasibility of the state-owned pharmaceutical company. The appointed advisory panel continues to consult various industry stakeholders from both the public and private sectors.

GPG has made a commitment to improve audit outcomes through the development of GPG clean audit strategy. In implementing the strategy, GPG officials were trained on changes for Modified Cash Standard (MCS). The purpose of this training was to provide guidance on the change in the accounting for prepayments and advances expensed to adhere to the Modified Cash Standard (MCS) change in accounting policy effective from 1 April 2023. Officials were also trained on unauthorised, irregular, fruitless and wasteful expenditure disclosure in line with amendments issued by the National Treasury. GPG has agreed with national government on the scrapping of e-tolls and has made a commitment to finance 30% of the e-toll debt over a period, including provision of funding for maintenance backlog of R4.1 billion. The debt will be financed through borrowing from institutions established by act of parliament or commercial banks.

Overview of the Financial Results of the Department

Departmental Receipts

Departmental Receipts	2023/2024			2022/2023		
	Estimate	Actual Amount Collected	(Over)/Under Collection	Estimate	Actual Amount Collected	(Over)/Under Collection
	R'000	R'000	R'000	R'000	R'000	R'000
Sale of goods and services other than capital assets	929	527	402	869	525	344

Total	670 898	1 725 944	(1 055 046)	624 091	1 109 422	(485 331)

Revenue at the GPT consists of parking fees, commission on insurance and garnishee orders, interest on bank accounts and staff debt collections. The actual revenue collected was 157% more than what was projected for the end of the financial year. The Gauteng Provincial Government's lower spending resulted in yielding higher than anticipated positive balances in the provincial reserves causing the over collection on interest, dividends and rent on land. The over collection on financial transactions in assets and liabilities is due to debtors that have paid more than what was anticipated.

The department expenditure was recorded at R765.2 million which is 96.2% of its budget. The underspending was mainly recorded under compensation of employees due to delays in filling of approved structure. See the explanation below:

ADMIN - The actual expenditure for the year 2023/24 is at 98.8%. The underspending is due to vacant posts on the new approved structure not yet filled.

SFRM - The actual expenditure for the year 2023/24 is at 99.5%. The programme achieved its target.

FG – The actual expenditure for the year 2023/24 is at 97.5%. The reported current year underspending is due to vacant posts on the new approved structure not yet filled.

PSCM - The actual expenditure for the year 2023/24 is at 92.4%. The reported current year underspending is due to vacant posts on the new approved structure not yet filled.

MFG - The actual expenditure for the year 2023/24 is at 89.8%. The underspending is due to vacant posts on the new approved structure not yet filled.

GAS - The actual expenditure for the year 2023/24 is at 94.2%. The underspending is due to vacant posts on the new approved structure not yet filled.

Virements / roll overs

The department shifted budget within programmes to align resources to programme expenditure at year-end. This was done in accordance with section 43 of the Public Finance Management Act (PFMA).

Unauthorised, fruitless and wasteful expenditure

An amount of R230 000 is under investigation to identify weaknesses that caused the suspected error and make recommendations to strengthen internal controls to prevent recurrence of this nature.

Strategic focus over the short to medium term period

As we have reached the end of political term, it was critical that the department's plan fulfils the priorities in the GGT 2030, the elevated priorities and those highlighted in the GPG mid-term review of performance report. In contributing towards the achievement of these end-of-term key priorities articulated above, the GPT was intentional in formulating performance indicators in the 2023/24 annual performance plan that were directly linked to the realisation of these key priorities which were monitored and reported on at various accountability, monitoring, oversight, and management structures. As the new political term gets underway, the department will over the short to medium term period, align its plans and key outcomes in line with the national and provincial priorities of the new administration.

Public Private Partnerships (PPPs)

The Department does not have any registered PPPs, as it only plays a regulatory and oversight role in this area for the Provincial government and municipalities. Through its government entity, namely GIFA, the Department plays a critical role in preparing

infrastructure projects for potential funding.

Discontinued key activities / activities to be discontinued

There are no discontinued activities or activities that are planned for discontinuance.

New or proposed key activities (Future plans of the department)

There are no new or proposed activities in the department.

Supply Chain Management

There are no unsolicited bid proposals concluded for the year under review. Procurement of goods and services is centralised in the procurement unit within the office of the Chief Financial Officer. This enables the unit to ensure that procurement is done in accordance with the legislative framework. The procurement unit also regularly meets with end users to advise on procurement matters to ensure that SCM processes and procedures which are in place are adhered to and to prevent irregular expenditure. Procurement in the department has purely been driven by our approved demand plan which is prepared, implemented and monitored in-line with the PFMA.

Gifts and Donations Received in Kind from Non-Related Parties

For the 2023/24 financial year, there were no declarations made in the Departmental register for gifts / sponsorships / donations received.

Exemptions and deviations received from NT

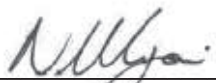

There were no exemptions that were received by the department from the National Treasury.

Events after the reporting period

There are no reportable matters falling under events occurring after the reporting period.

Acknowledgement/s or Appreciation

I would like to thank the MEC for support and guidance, and all the staff of the Gauteng Provincial Treasury for their commitment and contribution towards the achievement of the department's mandate. As we move into the 7th administration, it is critical that we align our plans to the priorities of the new administration, and we double our efforts to achieve the intended outcomes.

Statement of Responsibility and Confirmation of Accuracy of the Annual Report

To the Best of My Knowledge and Belief, I Confirm the Following:

All information and amounts disclosed throughout the annual report are consistent.

The annual report is complete, accurate and is free from any omissions.

The annual report has been prepared in accordance with the guidelines on the annual report as issued by National Treasury.

The Annual Financial Statements (Part F) have been prepared in accordance with the modified cash standard and the relevant frameworks and guidelines issued by the National Treasury.

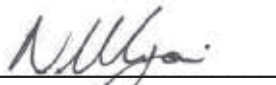

The Accounting Officer is responsible for the preparation of the annual financial statements and for the judgements made in this information.

The Accounting Officer is responsible for establishing and implementing a system of internal control that has been designed to provide reasonable assurance as to the integrity and reliability of the performance information, the human resources information and the annual financial statements.

The external auditors are engaged to express an independent opinion on the annual financial statements.

In my opinion, the annual report fairly reflects the operations, the performance information, the human resources information and the financial affairs of the department for the financial year ended 31 March 2024.

Yours faithfully,

Ms Ncumisa Mnyani

Innovative – We seek out the best-in-class practices and procedures to execute our mandate and strive to be trendsetters and pioneers in financial management

Respect – We are a unified and compassionate team that respects and cares about the wellbeing of our employees and stakeholders

Legislative and Other Mandates

Legislative Mandates

Gauteng Provincial Treasury Derives its Mandate From the Following Legislation:

The Constitution of the Republic of South Africa (Act 108 of 1996)

The Mandate and environment within which National, Provincial and Local Government Financial Departments and Treasuries operate, is specifically described in Chapter 13: General Financial Matters.

Division of Revenue Act

To provide for the equitable division of revenue raised nationally, inclusive of conditional grants, amongst the three spheres of government and matters incidental thereto.

Basic Conditions of Employment Act, 1997 (Act 75 of 1997)

The Basic Conditions of Employment Act, 1997 gives effect to the right to fair labour practices referred to in section 23(1) of the Constitution by establishing and making provision for the regulation of basic conditions of employment.

The Public Service Act, 1994 (Act No. 103 of 1994)

To provide for the organization and administration of the Treasury and for human resource management, this includes the regulation of conditions of employment, terms of office, discipline, retirement and discharge of staff members of the Treasury.

Labour Relations Act, 1995 (Act 66 of 1995)

To regulate and guide the Treasury in recognizing and fulfilling its role in effecting labour harmony and the democratization of the workplace.

Employment Equity Act, 1998 (Act 55 of 1998)

To regulate the processes and procedures of the Treasury in achieving a diverse and competent workforce broadly representative of the demographics of Gauteng and eliminating unfair discrimination in employment towards implementing employment equity.

Borrowing Powers of Provincial Government Act, 1996 (Act 48 of 1996)

To provide norms and conditions which the Treasury must adhere to in negotiating loans for the Provincial Government.

Intergovernmental Fiscal Relations Act, 1997 (Act 97 of 1997)

To define the role of the Minister of Finance and Economic Development and that of the Treasury as representatives of the Provincial Government, in promoting co-operation between other spheres of government on fiscal, budgetary and financial matters; to provide insight into the prescribed processes for the determination of the equitable share and allocation of revenue raised nationally and for matters in connection therewith.

Municipal Finance Management Act (2004)

To support and monitor financial management in municipalities.

Municipality Systems Act (2000) and Development Facilitation Act (1995)

To support and monitor municipal IDP processes.

Preferential Procurement Policy Framework Act (2000)

To provide a framework for the implementation of the preferential procurement policy.

Promotion of Access to Information Act (PAIA), 2000 (Act 2 of 2000)

To give effect to the constitutional right of access to any information held by the State and any information that is held by another person and that is required for the exercise or protection of any rights; and to provide for matters connected therewith.

The Promotion of Administrative Justice Act (PAJA), 2000 (Act No.3 of 2000)

The PAJA is the law passed to "give effect" to the right to just administrative action in the Bill of Rights. This says everyone has the right to fair, lawful and reasonable administrative action; and reasons for administrative action that affects them negatively.

Public Finance Management Act, 1999 (Act 1 of 1999)

To regulate financial management in the Treasury to ensure that all revenue, expenditure, assets and liabilities of the Treasury are managed efficiently and effectively; to provide for the responsibilities of persons entrusted with financial management in the Treasury and to provide for matters connected therewith. To fulfill all Treasury responsibilities with respect to other Departments and public entities.

Preferential Procurement Policy Framework Act, 2000 and Regulations

The Act gives effect to section 217(3) of the Constitution by providing a framework for the implementation of the procurement policy contemplated in section 217(2) of the Constitution. The Act and regulatory framework is applicable to all organs of state, and the state must advance previously disadvantaged persons.

The Gauteng Finance Management Supplementary Act, 2018

The Open Tender Process (OTP) was introduced to promote accountability, transparency, integrity and public scrutiny regarding all decisions made on tenders. The Gauteng Provincial Government must demonstrate in practice that it is committed to eradicate corruption from the procurement processes. A critical element of the OTP implemented in Gauteng is to conduct tender adjudication processes in public. It is for this reason that the regulatory framework pertaining to the OTP was promulgated. As custodians of this function and regulatory framework, the department must make regulations, instructions and ensure compliance with this framework.

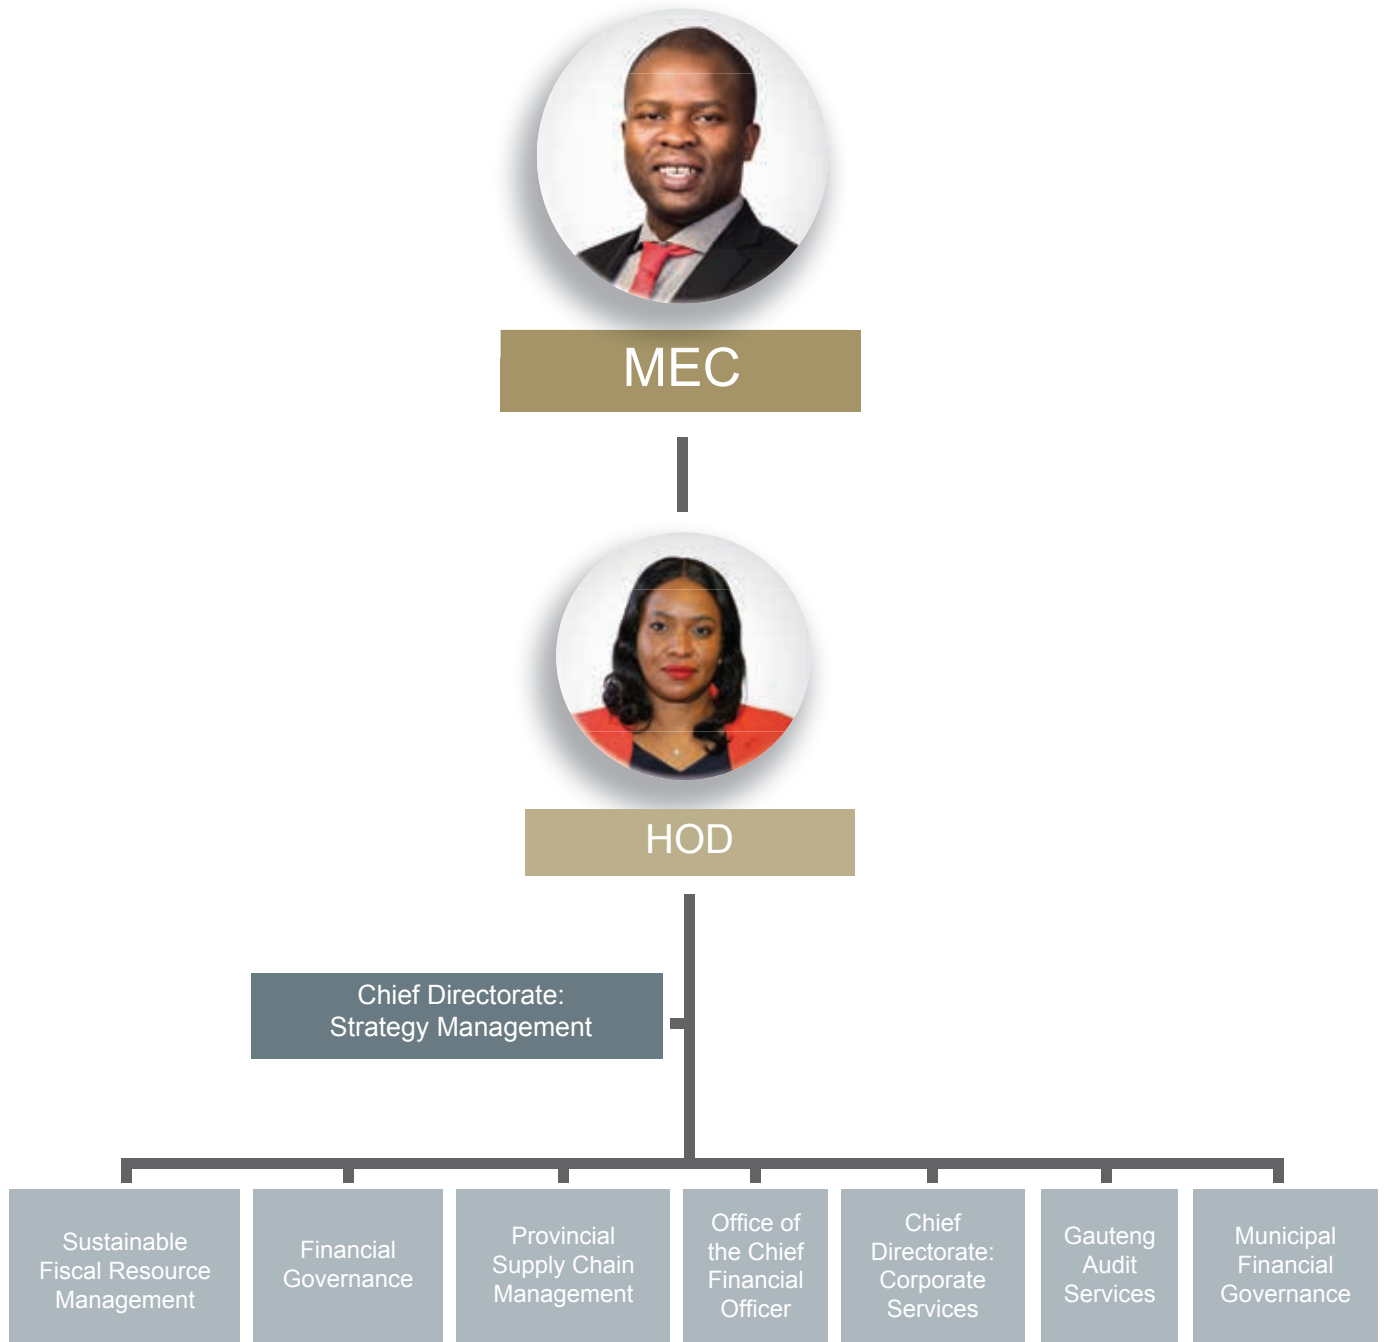

Occupational Health and Safety Act, 1993 (Act No. 85 of 1993)

The act governs the management of health and safety in all organisations.

The Disaster Management Act, 2002 (Act No. 57 of 2002)

This act provides for an integrated and coordinated disaster management approach in South Africa that focuses on preventing and reducing the risk of disasters, mitigating their severity, emergency preparedness, rapid and effective response to disasters and post-disaster recovery.

Organisational Structure

Entity Reporting to the MEC

The Gauteng Infrastructure Financing Agency (GIFA) is mandated to develop infrastructure project concepts and ideas to bankable proposals. GIFA also provides innovative infrastructure financing solutions and facilitates funding sources through partnerships of private investors, development finance institutions and government. This mandate supports one of the objectives of the Gauteng Provincial Treasury, which is to ensure balanced budgeting and sustainable funding for legislative mandates and strategic priorities of the province. GPT has transferred R74 868 000 to GIFA in the 2023/24 financial year.

2.1 Service Delivery Environment

The 2023/24 financial year marked the end of the 6th Administration. In the latter part of the 2022-23, the Premier of Gauteng, Mr. Panyaza Lesufi, outlined the plans that the Gauteng government intended to implement and prioritize in the remaining period of the 6th Administration.

The GGT 2030 strategy remained as the blueprint guiding the work of the provincial government and a commitment was made to the following elevated priorities, that are underpinned by a focus on the improved living conditions in townships, informal settlements and hostels (TISH) program:

- Accelerate Gauteng's economic recovery.
- Strengthen the battle against crime, corruption, lawlessness, and vandalism.
- Improve health and wellness of communities.
- Strengthen the capacity of the state to deliver quality services to the people of Gauteng and
- Focus on incomplete infrastructure investment.

The MEC of Finance was tasked with the following priorities:

- Development of a revenue model aimed at funding the e-toll debt
- Establish a state-owned pharmaceutical company,
- Establish a state-owned developmental bank.

In contributing towards the achievement of these end-of-term key priorities articulated above, the GPT was intentional in formulating performance indicators in the 2023/24 annual performance plan that are directly linked to the realisation of these key priorities and were monitored and reported on at various accountability, monitoring, oversight, and management structures.

In support of the GGT 2030 Priority 1 of the economy, jobs and Infrastructure, the Gauteng Provincial Treasury continued to drive efforts in ensuring the leveraging of public procurement in the province. The Provincial Supply Chain Management programme within the GPT continued to monitor procurement spend by GPG departments to ensure 60% of the budget on good and services is procured from township-based businesses. The department also continued to monitor expenditure by departments to ensure preferential procurement from enterprises owned or managed by women (40%), youth (30%) and persons with disabilities (7%).

The GPT also contributed to the GGT 2030 Priority 5 of A capable, ethical and developmental state, and does so by ensuring an honest and capable state with professional and meritocratic public servants. In this regard, the GPT implemented the Clean Audit strategy to ensure improved audit outcomes for GPG institutions.

In the 2023-24 financial year, the GPT concluded the legal opinion on the establishment of the state-owned bank and the establishment of the pharmaceutical company. The development of business case for the state-owned pharmaceutical company has started. The proposed solution will address, amongst others, institutional arrangements, supply chain management, medicine procurement, facilities, distribution of medicines to the Provincial Healthcare facilities, medicines inventory and dispensary to members of the public. An advisory panel has been established and continues to consult various industry stakeholders from both the public and private sectors, including the Department of Health. The development of the state-owned bank is also in progress, as at the end of the financial year, the process of sourcing a Transactional Advisor to develop a business case was ongoing and as pronounced by the Premier in his State of the Province Address on the 19th of February 2024, the Province will be the first to transact with the to be established national state owned bank.

The GPT has activated the dispute resolution centralised email address and continued to monitor this email with the aim to resolve

any queries received. GPT committed to provide support towards township businesses and accelerate timeous payment of invoices to ensure their sustainability.

Clean audits in GPG institutions continue to be a priority matter and the GPT enhanced its oversight and support role to address findings that lead to regression in audit outcomes and improve on accountability and governance matters, through the implementation of the Clean Audit Strategy. During the 2023 audit, the department achieved unqualified audit outcomes with no other matters and has assisted by reviewing Annual Financial Statements for departments and entities prior to submission for AG audit. The Municipal Financial Management also put in measures in place and supported municipalities in reducing significant/ repeat audit findings that lead to qualifications in audit outcomes.

The GPG Own Revenue Enhancement Strategy was approved by EXCO in 2021 and subsequently launched. The intended objective for the strategy is to supplement the available financial resources towards resourcing of the “Growing Gauteng Together 2030 Plan”. Implementation of the Strategy has commenced and in progress. GPT plays a leadership role to ensure that implementation continues as planned and without disruptions and ensures that measures are put in place where there are challenges. The Department continued the implementation of the Enhanced Revenue Strategy and has identified projects that have potential to open up new revenue streams and leveraged on technology to increase revenue collection, thus in the 2023/24 Provincial own revenue collection exceeded the target of 7.5% with an achievement of 14% and this was due to GPT over collection from interest revenue.

As the province continued to mainstream gender responsive planning and budgeting, the Gauteng Provincial Treasury provided guidance to the provincial departments in the compilation of gender responsive plans and budgets. In this shared leadership role, the GPT supported provincial departments in quantifying the budgets to fund the interventions aimed at the targeted groups to contribute towards the assessment of the gender responsiveness of the provincial budgets. The GPT facilitated the discussion of the budget responsiveness by including the gender responsive planning and budgeting in the agenda of the provincial budget committees such as the Medium-Term Expenditure Committee (MTEC) and the Premier’s Budget Committee (PBC). Beyond planning and budgeting, the department also contributed towards the provincial reporting on the subject matter. The Treasury supported provincial departments when they quantify the quarterly expenditure amounts that benefit the targeted groups.

2.2 Service Delivery Improvement Plan

The purpose of developing a SDIP is to facilitate the commitment of state institutions to continuous service delivery improvement mechanisms to improve the nature or quality of the actual service being provided and the way the service is delivered. GPT has an approved SDIP plan and the relevant units report progress on the plan each quarter as per the directive by the Department of Public Service and Administration.

The table below reflects the SDIP annual report that was compiled against the annual targets for 2023/24 financial year as reflected in the 2023/24 – 2024/25 Plan.

2.3 Organisational Environment

In the 2023/24 financial year, the National Treasury issued the Cost Containment measures for implementation by all government institutions with the aim of managing fiscal sustainability for the province and making trade-offs in government spending over the short and medium term to incorporate the cost of the wage agreements within the tight Gauteng economy. There have not been major impacts for GPT to planned activities due to cost containment. All planned activities were implemented within the available departmental resources while there were minor changes to operations to ensure cost cutting measures are implemented in the department.

The department operated on an approved organizational structure with a total staff establishment of 987 positions and 866 filled posts as at end of March 2024. Sixty-one percent of the total staff establishment were positions occupied by women and people with disabilities occupied 1.85% of total staff establishment. Owing to the implementation of the organisational structure, the vacancy rate was above the statutory 10 percent. The table below shows the breakdown of human resources in the department by end of the 2023/24 financial year.

Description	Number
Total Staff Complement*	918
Africans	91.45% (792/866*100)
Women	61.43% (532/866*100)
People with Disabilities	1.85% (16/866*100)
Vacancy Rate	12.26% (121/987*100)

Human Resource Oversight * as at end of March 2024

The department focused on improving its performance in achieving the provincial targets of procurement spend on the designated groups. The GPT must formulate sound sourcing strategies in line with the prescripts to ensure an improved performance in empowering women, youth, people with disabilities and military-veterans owned businesses. This will ensure that the procurement spend of the department is representative of the Gauteng Province demographics and promotes equity.

2.4 Key Policy Developments and Legislative changes

Employment Equity Amendment Act 04 of 2022 (EE ACT)

The EE Act was assented to by the President on 6 April 2022. The new section 15A will introduce sectoral numerical targets. The purpose of this addition is to ensure the equitable representation of people from designated groups (historically disadvantaged groups of people based on race, gender, and disability) at all occupational levels in the workforce.

The EE Act of 1998 empowers the Employment and Labour Minister to regulate sector specific EE targets and to regulate compliance criteria to issue EE Compliance Certificates in terms of Section 53 of the EE Act.

The Compensation for Occupational Injuries and Diseases (COIDA) Amendment Act 10 of 2022 (assented to in April 2023)

The amendments to the COIDA Act include the following:

- An expanded definition of workers' dependents and beneficiaries to include their spouse(s), children, siblings, parents, and grandparents.
- Diseases and post-traumatic stress disorder resulting from the workplace are now included and provides relief to women exposed to gender-based violence at work.
- Introduction of a multi-disciplinary employee-based process of rehabilitation and reintegration of injured employees or employees who contracted occupational diseases.

Public Procurement Bill

The objectives of the Bill seek to give effect to the prescripts of Section 217 of the Constitution, by:

- a) Ensuring that the State utilises and leverages procurement to:
 - Advance economic opportunities for previously disadvantaged people and women, the youth and persons with disabilities, small businesses; and
 - Promote local production.
- b) Providing for procurement that, inter-alia:
 - Is developmental in nature;
 - Ensures value for money in the use of public funds;
 - Aspires to expand the productive base of the economy.
- c) Developing economic capacity in the Republic, through the provision of opportunities for local suppliers to participate in procurement; and
- d) Incorporates in the procurement system:
 - Categories of preference in the allocation of contracts; and
 - The protection and advancement of persons and categories of persons disadvantaged by unfair discrimination; and
- e) Create single regulatory framework for public procurement to eliminate fragmented procurement prescripts.
- f) This Bill applies to all National & Provincial Departments, Constitutional institutions, municipalities and municipal owned entities. The aforesaid, upon becoming law will apply to all departments, constitutional institutions, municipalities or municipal owned entities.

The Constitution Twentieth Amendment Bill

The amendment require national legislation to establish a Cyber Commissioner that will:

- a) establish and maintain:
 - suitable cyber security capabilities for all organs of state and entities dealing with public information;
 - capabilities to assist the police service with the necessary capacity to conduct cyber forensic investigations; and

- a cyber security hub for the reporting, monitoring and investigation of cyber security incidents and threats in the private and public sectors;
- advise all institutions responsible for the critical infrastructure of the Republic with regard to cyber security;
- promote, monitor and evaluate the compliance of all organs of state and other entities with regard to:
- cyber security capabilities and standards; and
- national legislation relating to protection of personal or public information and interception of data.

Public Service Amendment Bill

The amendment of the Public Service Act, 1994 incorporates aspects relating to:

- the devolution of administrative powers from executive authorities to heads of department;
- a mechanism to deal with the recovery of overpayments of remuneration and benefits;
- providing clarity on the role of the Public Service Commission in respect of grievances; and
- clarifying the role of the President and the Premier in respect of the appointment and career incidents of heads of departments.

Public Administration Management Amendment Bill

The Bill seeks to amend the Public Administration Management Act, 2014, so as to further provide for the transfer and secondment of employees; to provide clarification regarding the prohibition against employees conducting business with organs of state; to provide for the National School of Government to be constituted as a national department; to provide for the removal of employment disparities across the public administration; to provide for the co-ordination of the mandating process for collective bargaining in the public administration.

Gauteng Township Economic Development Amendment Bill

The amendment of the Gauteng Township Economic Development Act, 2022 seeks to provide for the following:

- the procedure for the designation of township enterprise zones and township enterprise precincts;
- the provision of a register of township-based enterprises; and
- the expansion of regulation-making powers of the responsible Member.

3. Achievement of Institutional Impacts and Outcomes

PROGRESS TOWARDS ACHIEVEMENT OF INSTITUTIONAL IMPACTS AND OUTCOMES			
STRATEGIC LINKAGES		GPT STRATEGIC PLAN	GPT STRATEGIC REPORTING
Medium Term Strategic Framework (MTSF) Priority	Growing Gauteng Together (GGT) Priority	Outcome as per approved Dept Strat Plan	Summarised Dept Performance during the 2023/24 financial year
Economic transformation and job creation	Economy, jobs and infrastructure	Enhanced sound finances in the province	<p>2023/24 was the final year of the 6th administration and the department has achieved commendable impact on priorities planned in the strategic plan. The department has made an impact through maintaining sound finances in the province by ensuring credible, funded and sustainable budgets were aligned to provincial plan and local government sphere. The tabling of the MTEF budgets continued to resource the five elevated provincial priorities of the GGT2030 Plan which is in line with the strategic direction of government to ensure effective conclusion of the sixth administration. In addition, through spatially referenced budget, various locations were targeted within Gauteng to promote effective service delivery.</p> <p>The department was successful in implementing the Revenue Enhancement strategy aimed at optimizing and diversifying own revenue collection in the province. The optimisation and diversification of own revenue collection is critical in augmenting the equitable share and conditional grant funding allocations that the province receives. These results are evident in 2023/24 financial as 14% was achieved exceeding a planned target of 7.5%. Over collection was recorded by departments such as GDE, GDARD and GPT mainly due to interest earned on positive provincial balances as a result of slow spending from cost containment.</p> <p>GPG maintained less than 60% in 2023/24 financial year wage bill with no operational budget issues for goods and services. This achievement has made significant impact as funds were conserved for goods and services and capital investment and ensured that the crowding out by compensation of employees of existing resources did not materialise. These results were achieved through continuous monitoring of this expenditure. In ensuring that cash requisitions by GPG departments remain within available cash resources and to immunize the province from liquidity exposure, cash disbursements to departments did not exceed appropriated funds.</p>
		Sustainable local government finances	<p>A key impact indicator outlined in the strategic plan for GPT was to improve budgeting and planning processes for municipalities over five years. The department has made an impact by intensifying oversight, building capacity to strengthen financial management practices to improve effectiveness in supporting delegated municipalities. Assessments of draft, adopted, and adjustment budgets was carried out to improve the budgeting process for delegated municipalities. The department was able to send inputs to municipalities for implementation and to improve budgeting process and drive implementation of funded budgets in local municipalities.</p> <p>Similarly to budget assessments, quarterly MFMA assessments were conducted on the 8 delegated municipalities to determine MFMA compliance by the delegated municipalities and identify areas of improvement. The objective was to monitor the level of implementation by the delegated municipalities of the MFMA and its Regulations, identify gaps and provide support where needed.</p> <p>To achieve impact in municipalities, one of the key interventions provided by GPT is capacity building. GPT offered different capacity building initiatives targeted at improving financial management skills and capability in executing functions related to budget management, revenue, expenditure management and asset management.</p> <p>The Department has implemented intergovernmental relation (IGR) in municipalities. These engagements were held with different stakeholders on quarterly basis. The purpose of these IGR engagements is to share information and encourage best practice amongst municipalities to enhance or improve compliance to the MFMA. In 2023/24 financial year, 71 engagements were conducted with most of the engagements aimed at addressing the debt and grant management challenges faced by municipalities.</p>
		Reduced youth unemployment	<p>The department has made a commitment in the Strategic Plan to reduce unemployment and contribute to change the lives of youth in the province. To achieve this impact, a target of 10% against staff establishment was planned by the department and this target was exceeded as the department managed to achieve 12% in the final year of the 6th administration. This translates to 93 youth who were placed on different developmental programmes including the following:</p> <ul style="list-style-type: none"> • 69 internship programmes • 10 bursaries • 14 SAIPA Trainee Accountants <p>The focus of youth development programmes is to expose the graduates to real-time, hands-on work experience to be better prepared for the labour market and to acquire professional accounting and audit related qualifications. The department has adopted a multipronged approach to youth development (internship/learnership) spanning several key programmes, namely, Supply Chain Management, Internal Audit, Corporate Services, Financial Governance and Municipal Financial Governance.</p>

PROGRESS TOWARDS ACHIEVEMENT OF INSTITUTIONAL IMPACTS AND OUTCOMES			
STRATEGIC LINKAGES		GPT STRATEGIC PLAN	GPT STRATEGIC REPORTING
Medium Term Strategic Framework (MTSF) Priority	Growing Gauteng Together (GGT) Priority	Outcome as per approved Dept Strat Plan	Summarised Dept Performance during the 2023/24 financial year
Capable, ethical and developmental state	Building a capable, ethical and developmental state	Increased compliance with legislated prescripts	<p>The department has made an impact in the province by promoting and enforcing transparency and effective Supply Chain Management (SCM). One of the notable key achievements defining the impact of the work done by the GPT is the successful implementation of open tender procurement process. The department continues to execute an oversight function through monitoring of open tender projects implemented by departments and entities. The department achieved unqualified audit outcome with no matters for the AG audit, this means the department has effective controls in place to manage its finances, performance and complies with applicable laws and regulations thus increasing public confidence on its ability to manage its affairs effectively.</p> <p>To improve compliance with legislated prescripts the department continued to implement SCM compliance assessments for all 14 departments and for 8 entities and further produced SCM compliance registers for those departments and entities.</p> <p>GPT improved internal controls, governance and risk management processes in GPG through the implementation of internal audits and 93% of reports were issued by the end of financial year. All action plans for internal audit findings for departments and entities were tracked. The department ensured that 19 audit plans approved by the Audit Committee were issued to departments and trading entities and 100% of Auditor General's management letter findings were followed up through follow-up audits.</p> <p>The department reviewed its risk register during the year which also informed the GPT internal audit plans. Through the department's ethics management system, it was found that none of GPT officials are doing business with the state which promote transparency and maintains good governance.</p> <p>The Department has conducted 8 training workshops for township-based suppliers. The training offered to township-based enterprises equips them with the necessary skills to be able to increase their participation in GPG tender processes. SMMEs are also trained on how to register on the Central Supplier Database and how they can access opportunities offered in GPG.</p> <p>The payment of suppliers within 30 days is a top priority for GPG and GPT monitored departments compliance to 30 days payments and produced reports quarterly including spending reports by departments on township suppliers. In supporting payment of suppliers on time, for the financial year the department ensured that 99.7% of supplier invoices are submitted electronically against the target of 90%. The GPT also managed to pay 100% of valid invoices received within 30 days. Payment of suppliers on time has an impact for suppliers as it provide much needed cashflow especially to small businesses thus increasing their sustainability over the long term.</p> <p>Departments and entities expenditure was monitored during the financial year and in line with the requirements for in year monitoring (IYM) of financial performance. The submission of the monthly in-year monitoring reports ensured not only compliance with the PFMA but promoted accountability, ensured effective and efficient implementation of programmes and usage of resources. The reports also allowed government departments and entities to report on the progress made on its plans and any budget related challenges so that timely decisions can be taken by the accounting officers and with the support of GPT.</p>

4. Institutional Programme Performance Information

PROGRAMME 1: ADMINISTRATION

Purpose

To provide effective and ethical leadership, management and administrative support to enable the department to deliver on its mandate.

The Administration programme is divided into various sub-programmes that enables it to achieve its outcomes. The sub-programmes are as follows:

Office of the Member of Executive Council

- Purpose: To provide proactive political, strategic and administrative support to the MEC.

Office of the Head of Department

- Purpose: To execute the mandate of the Treasury

Chief Directorate: Financial Management Services

- Purpose: To ensure sound financial management in the GPT.

Chief Directorate: Corporate Management

- Purpose: To ensure compliance to good governance principles by providing corporate support services to the department.

Chief Directorate: Strategy Management and Transformation Program

- Purpose: To manage and coordinate the implementation of strategic management services.

Outcomes

- Increased compliance with legislated transcripts
- Reduced youth unemployment

Key Achievements

During the 2023 audit by the Auditor General of South Africa, the department achieved unqualified audit outcomes with no other matters. In compliance with the requirement to pay suppliers within 30 days, the department ensured that all payments to invoices were paid within 30 days.

The department focused on youth development programmes to expose graduates to real-time hands-on work experience to be better prepared for the labour market. As part of its contribution to Tshepo 1 million initiative to reduce youth unemployment, the department has ensured that 93 youth are placed on development programmes. This includes internships, learnerships and provision of external bursaries by the department to deserving students. The department has conducted 4 workshops to promote awareness on transformation agenda matters and produced reports to monitor the implementation of GEYODI programmes.

PROGRAMME 2: SUSTAINABLE FISCAL RESOURCE MANAGEMENT

SFRM Programme Support

Purpose

To enforce the effective and efficient administration of fiscal resources at provincial institutions.

The Sustainable Fiscal Resource Management programme is divided into various sub-programmes that enable it to achieve its outcomes. The sub-programmes are as follows:

Chief Directorate: Economic and Fiscal Policy Oversight

- Purpose: To provide socio-economic research and analysis as well as ensure effective oversight over revenue.

Chief Directorate: Budget Management

- Purpose: To develop and manage the implementation of policy frameworks.

Chief Directorate: Infrastructure Management

- Purpose: To enhance and monitor infrastructure performance of provincial departments, entities and municipalities.

Chief Directorate: Financial Assets and Liabilities Management

- Purpose: To promote and enforce transparency and effective management of provincial financial assets portfolio.

Chief Directorate: Public Finance

- Purpose: To monitor and report on financial and non-financial performance in provincial institutions.

Outcomes

- Enhanced sound finances in the province
- Increased compliance with legislated prescripts

Key Achievements

In ensuring sound finances in the province, the Department continued the implementation of the Enhanced Revenue Strategy and in the 2023/24 Provincial own revenue collection exceeded the target of 7.5% with an achievement of 14% from over collection by departments such as GDE, GDARD and GPT mainly due to interest earned on positive provincial balances as a result of slow spending from cost containment. The wage bill was maintained at 57% against the target of 60%. Further, the department tabled 1 spatially

referenced MTEF budget together with the socio-economic review and outlook for the province (SERO). Cash disbursements to departments did not exceed appropriation. The Medium-Term Budget Policy Statement (MTBPS) was tabled together with the adjustment budget at Legislature.

PROGRAMME 3: FINANCIAL GOVERNANCE**FG Programme Support****Purpose**

To promote accountability through substantive reflection of financial activities as well as compliance with financial standards, norms and standards as contained in the PFMA.

The Financial Governance Programme is divided into various sub-programmes that enable it to achieve its set outcomes. The sub-programmes are as follows:

Directorate: Compliance

- Purpose: To provide advisory services, monitor and enforce compliance with the PFMA.

Directorate: Transversal Financial Information Management Systems and SAP ERP Process and System Support

- Purpose: To provide oversight and management of transversal financial systems and ensure compliance in the implementation of new provincial automation processes.

Chief Directorate: Transversal Internal Audit and Risk Management

- Purpose: To manage and provide oversight on provincial audit and risk management services.

Chief Directorate: Provincial Accounting Services

- Purpose: To enforce the effective implementation of accounting practices and prepare accurate consolidated financial statements.

Outcome

- Increased compliance with legislated prescripts

Key Achievements

GPT ensured the submission of annual financial statements by departments and entities in line with legislated requirements. Monitoring the payment of suppliers is essential to ensure compliance with 30 days supplier payment policy, in this regard, the Department monitored payment of suppliers by provincial departments with GPT managing to pay 100% of received valid invoices within the stipulated 30 days. In ensuring efficiencies in the process of paying suppliers on time, the Department ensured that 99.7% of supplier invoices were submitted electronically against the target of 90%. In capacitating GPG departments and entities, the Department has conducted 2 training sessions as planned, 1 for departments and another 1 for entities. The department has coordinated audit committee meetings within GPG and ensured that all planned cluster meetings were held in accordance with the Audit Committee calendar.

PROGRAMME 4: PROVINCIAL SUPPLY CHAIN MANAGEMENT

PSCM Programme Support

Purpose

To promote and enforce transparency and effective Supply Chain Management.

The Provincial Supply Chain Management Programme is divided into various sub-programmes that enable it to achieve its outcomes. The sub-programmes are as follows:

Chief Directorate: Supply Chain Management Norms and Standards, Governance, Compliance and Monitoring & Evaluation

- Purpose: To establish uniform SCM policy, norms & standards, governance mechanisms and enforce compliance.

Chief Directorate: Supply Chain Management Client Support

- Purpose: To provide SCM client support within the GPG.

Chief Directorate: Contract Management and Strategic Management

- Purpose: To establish SCM transversal contract management mechanisms and strategic procurement mechanisms.

Outcome

- Increased compliance with legislated prescripts

Key Achievements

To increase compliance with legislated prescripts and ensure transparency and effective supply chain management processes in the Province, the department conducted SCM compliance assessments on all 14 departments and 8 entities and issued SCM compliance registers for departments and entities. The Department plays an oversight function within GPG and has monitored the payment of township suppliers and produced reports on a quarterly basis. The department continued its supplier development drive and 8 workshops were conducted for the financial year. The department monitored the implementation of Open Tender by the departments and entities quarterly and produced reports on monitoring the implementation plans by departments and trading entities.

PROGRAMME 5: MUNICIPAL FINANCIAL MANAGEMENT

MFG Programme Support

Purpose

To ensure efficient and effective management in Municipalities and municipal entities and coordinate the provisioning of capacity building.

The Municipal Financial Management programme is divided into various sub-programmes that enables it to achieve its outcomes. The sub-programmes are as follows:

Chief Directorate: Local Government Financial Services

- Purpose: Ensure optimal and sustainable budget management and monitor the effective and efficient compliance with financial assets and liabilities management.

Chief Directorate: Municipal Accounting, Reporting and Asset Management

- Purpose: Monitor compliance with financial management and annual reporting frameworks. Enhance, monitor and enforce transparent and effective asset management and coordinate, monitor and report on MFMA implementation.

Chief Directorate: Municipal Compliance and Financial Management Support

- Purpose: Ensure municipal compliance on financial management.

Outcome

- Sustainable local government finance

Key Achievements

The Department held intergovernmental relations (IGR) engagements with relevant stakeholders and as result 71 engagements were held in the 2023/24 financial year, the engagements were aimed at addressing the debt and grant management challenges faced by municipalities. Quarterly MFMA compliance assessments were conducted on all 8 delegated municipalities to assess their MFMA compliance. The department conducted 17 training initiatives with municipalities, thus exceeding the target as a result of addressing the non-achievements which occurred during the financial year and also providing municipal officials with the best practices on asset management.

1. Introduction

Chapter 13, Section 215(1) of the Constitution states that, “National, Provincial, and Municipal budgets and budgetary processes must promote transparency, accountability, and the effective financial management of the economy, debt and the public sector”. These principles are embedded in the responsibilities of both, the Internal Audit and Risk Management functions, to evaluate controls, risk management and governance processes.

The Audit Committee and the Risk and Ethics Management Committee are also established to provide assurance on compliance and governance issues as oversight structures. The Department has a functional governance system, with the highest decision-making authority being the Executive Management Team (EMT) that oversees the effective and efficient management of the Department.

2. Risk Management

Departmental Risk Management Processes are guided by its Risk Management Policies and Risk Management Framework; these are reviewed on a regular basis to ensure alignment to risk management standards. In line with the Treasury Regulation 3 2.1; the Department identifies emerging risks on a regular basis; these are assessed and managed on an ongoing basis.

The Accounting Officer has appointed a Risk and Ethics Management Committee (the Committee) to assist her in discharging responsibilities pertaining to risk management and ethics management. The Committee is chaired by an independent Chairperson; and its members are Senior Officials employed by the Department; formally appointed by the AO. The Committee met four times during the financial year under review and provided oversight to the risk and ethics management processes. On a quarterly basis, the Chair of the REMC reports to the AO and the Audit Committee, escalating matters needing intervention where applicable.

3. Fraud and Corruption

There is continuous communication of messages regarding what fraud and corruption are and the procedures to be followed when reporting fraud and corruption, such as awareness during induction, webinars that were conducted during the financial year.

Department conducted Fraud Risk Review which is used for updating the fraud prevention plan. In addition to that, Data Analysis on officials registered on CSD conducted during the year by the audit, and there were no officials found/identified to have been doing business with the state.

Department obtained 100% compliance on Financial Disclosures, as all SMS Members and Other Designated Categories completed and submitted their e-Disclosures.

4. Minimising Conflict of Interest

Chapter 3 of the Public Service Regulations requires that all Senior Management Service (SMS) members must declare their financial interests and submit these by the end of April of each year and that the Executive Authority should submit these to the Public Service Commission by the end of May. The GPT was in full compliance with both legislated deadlines for the year under review.

In addition to that, Middle Management and Other Designated Categories (i.e SCM/Finance officials) were required to declare their financial interest and submit by end of July 2023 and GPT was in full compliance with the legislated deadlines.

The Accounting Officer has in line with the directive on PSR 2016 submitted a report to the DPSA on the outcome on financial disclosures by all categories timeously.

5. Code of Conduct

The revision of Public Service Regulations in 2016 has resulted in changes to the Public-Sector Code of Conduct.

The Department enrolled officials with the National School of Governance for an Ethics Online Course dealing with the Code of Conduct through their eLearning programme.

6. Health, Safety and Environmental Issues

The Department has a functional OHS Committee made up of competent and duly appointed representatives, who monitor the implementation and compliance to OHS provisions. Monthly inspections are conducted and identified hazards are addressed. In March 2022, the Department of Employment and Labour conducted inspection and issued out ten (10) direction notice (6 contravention, 3 improvements, 1 prohibition) of which nine (9) are resolved. The building (Imbumba House) was evacuated from 18 September 2023 until further notice, after it was declared non-compliant to Occupational Health and Safety owing to the leakage from the rooftop and effects of such on the walls and ceilings.

Business continuity measures were invoked; by implementing and adopting a hybrid working model to accommodate the critical functions that cannot be performed from home. Critical employees are housed in different departments/entity on rotation basis while others are working hybrid (home/client's premises). The department strengthened the provisions of tools of trade for the employees working from home. Progress is being monitored at Executive Management level and by the oversight bodies.

7. Portfolio Committees

The Department engaged with the Finance Portfolio Committee on the following matters:

- 2023/24 Provincial Adjustment Bill
- Division of Revenue Amendment Bill 2023
- 2023/24 Quarterly Reports
- 2022/23 Annual Report
- 2023/24 Quarterly State of Finances Reports
- 2024/25 Departmental Vote 14 Budget
- 2024/25 Provincial Appropriation Bill

Any issues raised by the Committee were addressed through Legislature processes.

8. Prior Modifications to Audit Reports

The Department obtained a clean audit outcome, there were no prior modifications to audit reports.

9. Internal Control Unit

The implementation of effective internal control helps in the achievement of the objectives of the Department. Effective controls also ensure sustainable and improved performance, in that potential risks are identified and mitigated to reduce the impact thereof on the performance of the organisation.

On a quarterly basis, the Department conducts self- assessment of key controls wherein control deficiencies are identified and mitigating actions put in place to strengthen the control. Internal Audit also conducts independent reviews, following up on significant audit findings raised by both internal and external audit thereby providing assurance to the Accounting Officer and oversight that controls are being implemented, monitoring of implementation of audit recommendations is continuous.

10. Internal Audit and Audit Committee

Objective of Internal Audit

Gauteng Audit Services (GAS) provides internal audit services to all GPG Departments. The objective of GAS is to promote sound corporate governance in the province through ensuring an effective internal control environment.

Key Activities of Internal Audit

Risk based Internal Audit Plans were developed by GAS and approved by the respective Cluster Audit Committees which exercise oversight over the activities of GAS.

GAS performs independent evaluations of internal control systems; governance and risk management processes and makes recommendations on their continuous improvement, in order to provide reasonable assurance that the GPG Departmental objectives will be achieved.

11. Report of the Audit Committee - Cluster 02

Gauteng Provincial Treasury

We are pleased to present our report for the financial year ended 31 March 2024.

Audit Committee and attendance

The Audit Committee consists of the external Members listed hereunder and is required to meet a minimum of at least two times per annum as per the provisions of the Public Finance Management Act, 1999 (Act Number 1 of 1999) (PFMA). In terms of the approved Terms of Reference (GPG Audit Committee Charter). Five meetings were held during the current year i.e., three meetings to consider the Quarterly Performance Reporting (financial and non-financial) and two meetings to review and discuss the Annual Financial Statements and the Auditor-General of South Africa's (AGSA) Audit and Management Reports.

Non-Executive members

Name of member	Number of meetings attended
Mr. Vishnu Naicker	05
Mr. Luyanda Mangquku	03
Ms. Sizo Mzizi	04

Executive members

In terms of the GPG Audit Committee Charter, officials listed hereunder are obliged to attend meetings of the Audit Committee:

Compulsory attendees	Number of meetings attended
Ms. Ncumisa Mnyani (Accounting Officer)	05
Mr. Phakamisile Sikitshana (Chief Financial Officer)	05
Ms. Keolebogile Nkadimeng (Chief Risk Officer)	05
Mr. Velile Kweyama (Chief Audit Executive)	05

The Audit Committee noted that the Accounting Officer attended all scheduled Audit Committee meetings. The Audit Committee is therefore satisfied that the Department adhered to the provisions of the GPG Audit Committee Charter.

The members of the Audit Committee met with the Senior Management of the Department, Internal Audit and the AGSA, individually and collectively to address risks and challenges facing the Department. No in-committee meetings were held to address control weaknesses and deviations within the Department.

Audit Committee responsibility

Based on the results of the audits performed and the follow up reviews conducted, the overall opinion on the internal control design was Adequate but ineffective to ensure that the Department objectives will be achieved.

Our review of the findings of the Internal Audit work, which was based on the risk assessments conducted in the department revealed certain weaknesses, which were then raised with the Department.

It is recommended that management should pay special attention to the following areas to ensure that the overall control environment is improved:

- Township Economic Revitalisation (TER) spend analysis
- Municipal Budget Assessments
- Patch management review
- IT continuity review

Internal Audit

Internal Audit was effective during the financial year. The Audit Committee is satisfied that the Internal Audit Plan represents a clear alignment with the key risks, has adequate information systems coverage, and a good balance across the different categories of audits, i.e., risk based, standard/transversal, performance, and computer audits. From a resource point of view, Internal Audit needs to be equipped to provide assurance on a greater number of risks.

The Audit Committee has noted considerable improvement in the communication between the Executive Management, the AGSA and the Internal Audit Function, which has strengthened the Corporate Governance initiatives within the Department. Combined assurance has taken off the ground, however, management need to ensure that it is implemented, monitored, and reported regularly.

The coordination of efforts between internal audit and AGSA have been enhanced further during the year in the provision of assurance services. The Audit Committee believes this is an important step towards a fully effective combined assurance.

The following internal audit work was completed during the year under review:

- Follow up - Foreign Exchange Transactions
- Cash Management
- Provincial Revenue Management
- GPG Consolidated Annual Financial Statements
- Township Economic Revitalisation (TER) spend analysis
- Municipal Budget Assessments
- Follow up audits on AG findings
- Supply Chain Management
- Review of Draft Annual Performance Report
- Performance of the Department against Predetermined Objectives Q1 and Q2
- SAP ESS & PERSAL leave reconciliation
- Data Analysis – ETHICS / FIN / HR (1 Jan 2023 – 30 June 2023) and (1 July 2023 – 31 December 2023)
- Patch management review
- IT continuity review
- 2024-25 IT risk assessment
- Follow up Audit on Significant Auditor General (IT Audit Findings)

The Audit Committee will continue to monitor the resources and capabilities of the Internal Audit function as this has an impact on the performance, functioning and effectiveness of GAS as an assurance provider.

Risk Management

Progress on the departmental risk management was reported to the Audit Committee on a quarterly basis. The Audit Committee is satisfied that the actual management of risk is receiving attention. Management should take full responsibility for the entire Enterprise Risk Management process and continue to support the Chief Risk Officer to enhance the performance of the Department even further.

Forensic Investigations

There was no new case received by Gauteng Forensic Services for the year under review.

The quality of quarterly reports submitted in terms of the PFMA and the Division of Revenue Act

The Audit Committee is satisfied with the content and quality of the financial and non-financial quarterly reports prepared and submitted by the Accounting Officer of the Department during the year under review and confirms that the reports were in compliance with the statutory reporting framework.

Evaluation of the Annual Financial Statements

The Audit Committee undertook the following activities related to Annual Financial Statements:

- Reviewed and discussed the audited annual financial statements to be included in the Annual Report with the AGSA and the Accounting Officer
- Reviewed the Audit Report of the AGSA
- Reviewed the AGSA's Management Report and Management's response thereto
- Reviewed the Departments compliance with legal and regulatory provisions
- Reviewed significant adjustment resulting from the audit.

The Audit Committee concurs with and accepts the AGSA's conclusions on the Annual Financial Statements and is of the opinion that the audited Annual Financial Statements be accepted and read together with the Report of the AGSA.

One-on-One meetings with the Accounting Officer

The Audit Committee has periodically held in-committee meetings with the Accounting Officer for the Department where necessary to address unresolved issues.

One-on-One meetings with the Executive Authority

The Audit Committee has periodically met with the Executive Authority for the Department to apprise the MEC on the performance of the Department.

Auditor-General of South Africa

The Audit Committee has periodically met with the AGSA to ensure that there are no unresolved issues.

Mr. Vishnu Naicker
Chairperson of the Audit Committee
Date: 13 August 2024

PART D: HUMAN RESOURCE MANAGEMENT

1. Introduction **58**

2. Overview Of Human Resources **58**

3. Human Resources Oversight Statistics **58**

1. Introduction

The information contained in this part of the annual report has been prescribed by the Minister for the Public Service and Administration for all departments in the public service.

2. Overview of Human Resources

The Status of Human Resources in the Department

As at 31 March 2024, the total number of posts was 987 of which 866 were filled and 121 vacant. The overall vacancy rate for the Department was 12,26%. The number of employees with disability was 16. This represents 1.85% of the GPT staff complement.

Workforce Planning and Key Strategies to Attract and Recruit a Skilled and Capable Workforce

The department submitted the HR Plan approved in 2020/21 for 2023/24 financial year as it was still valid. All vacant positions in the Department were advertised to encourage open competition. Headhunting was utilised in instances where suitable candidates could not be attracted through the normal recruitment process.

The Department provided training opportunities to staff members to obtain new qualifications and improve their skills and knowledge. An internship programme was established to provide young graduates with opportunities to gain knowledge and experience in the workplace, in order to be able to compete for jobs in the labour market.

Employee Performance Management

A total of 750 out of 756 employee performance agreements were captured, translating to 99% concluded performance agreements in line with prescripts. Final performance assessments for the 2022/23 cycle were finalised.

Opinion

1. I have audited the financial statements of the Gauteng Provincial Treasury set out on pages 99 to 130, which comprise the appropriation statement, the statement of financial position as at 31 March 2024, the statement of financial performance, statement of changes in net assets and cash flow statement for the year then ended, as well as notes to the annual financial statements, including a summary of significant accounting policies.
2. In my opinion, the financial statements present fairly, in all material respects, the financial position of the Gauteng Provincial Treasury as at 31 March 2024, and its financial performance and cash flows for the year then ended in accordance with the Modified Cash Standards (MCS) as prescribed by the National Treasury and the requirements of the Public Finance Management Act 1 of 1999 (PFMA) and the Division of Revenue Act 5 of 2023 (Dora).

Basis for opinion

3. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the responsibilities of the auditor-general for the audit of the financial statements section of my report.
4. I am independent of the department in accordance with the International Ethics Standards Board for Accountants' *International code of ethics for professional accountants (including International Independence Standards)* (IESBA code) as well as other ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.
5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Responsibilities of the accounting officer for the financial statements

6. The accounting officer is responsible for the preparation and fair presentation of the annual financial statements in accordance with the MCS and the requirements of the PFMA, and for such internal control as the accounting officer determines is necessary to enable the preparation of annual financial statements that are free from material misstatement, whether due to fraud or error.
7. In preparing the annual financial statements, the accounting officer is responsible for assessing the department's ability to continue as a going concern; disclosing, as applicable, matters relating to going concern; and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the department or to cease operations or has no realistic alternative but to do so.

Responsibilities of the auditor-general for the audit of the financial statements

8. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error; and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
9. A further description of my responsibilities for the audit of the financial statements is included in the annexure to this auditor's report. This description, which is located at page 96, forms part of my auditor's report.

Report on the audit of the annual performance report

10. In accordance with the Public Audit Act 25 of 2004 (PAA) and the general notice issued in terms thereof, I must audit and report on the usefulness and reliability of the reported performance against predetermined objectives for the selected programmes presented in the annual performance report. The accounting officer is responsible for the preparation of the annual performance report.
11. I selected the following programmes presented in the annual performance report for the year ended 31 March 2024 for auditing. I selected programmes that measure the department's performance on its primary mandated functions and that are of significant national, community or public interest.

Programme	Page numbers	Purpose
Sustainable fiscal resource management	32 - 35	To enforce the effective and efficient administration of fiscal resources at provincial institutions
Financial Governance	35 - 38	To promote and enforce transparency and effective supply chain management
Municipal financial management	40 - 42	To ensure efficient and effective management in municipalities and municipal entities and coordinate the provisioning of capacity building

12. I evaluated the reported performance information for the selected programmes against the criteria developed from the performance management and reporting framework, as defined in the general notice. When an annual performance report is prepared using these criteria, it provides useful and reliable information and insights to users on the department's planning and delivery on its mandate and objectives.
13. I performed procedures to test whether:
- the indicators used for planning and reporting on performance can be linked directly to the department's mandate and the achievement of its planned objectives
 - all the indicators relevant for measuring the department's performance against its primary mandated and prioritised functions and planned objectives are included
 - the indicators are well defined to ensure that they are easy to understand and can be applied consistently, as well as verifiable so that I can confirm the methods and processes to be used for measuring achievements
 - the targets can be linked directly to the achievement of the indicators and are specific, time bound and measurable to ensure that it is easy to understand what should be delivered and by when, the required level of performance as well as how performance will be evaluated
 - the indicators and targets reported on in the annual performance report are the same as those committed to in the approved initial or revised planning documents
 - the reported performance information is presented in the annual performance report in the prescribed manner and is comparable and understandable.
 - there is adequate supporting evidence for the achievements reported and for the reasons provided for any over- or underachievement of targets
14. I performed the procedures for the purpose of reporting material findings only; and not to express an assurance opinion or conclusion.
15. I did not identify any material findings on the reported performance information for the selected programmes.

Other matter

16. I draw attention to the matter below.

Achievement of planned targets

17. The annual performance report includes information on reported achievements against planned targets and provides explanations for over- or under-achievements.

18. The table that follows provides information on the achievement of planned targets and lists the key indicators that were not achieved as reported in the annual performance report. The reasons for any underachievement of targets are included in the annual performance report on pages 34 to 41.

Financial Governance

Budget spent: 97.5%		
Key indicator not achieved	Planned target	Reported achievement
Consolidated annual financial statements tabled at Legislature in line with prescribed timelines	22/23 Consolidated annual financial statements tabled at Legislature in line with prescribed timelines	22/23 Consolidated annual financial statements not tabled at Legislature in line with prescribed timelines

Report on compliance with legislation

19. In accordance with the PAA and the general notice issued in terms thereof, I must audit and report on compliance with applicable legislation relating to financial matters, financial management and other related matters. The accounting officer is responsible for the department's compliance with legislation.
20. I performed procedures to test compliance with selected requirements in key legislation in accordance with the findings engagement methodology of the Auditor-General of South Africa (AGSA). This engagement is not an assurance engagement. Accordingly, I do not express an assurance opinion or conclusion.
21. Through an established AGSA process, I selected requirements in key legislation for compliance testing that are relevant to the financial and performance management of the department, clear to allow consistent measurement and evaluation, while also sufficiently detailed and readily available to report in an understandable manner. The selected legislative requirements are included in the annexure to this auditor's report.
22. I did not identify any material non-compliance with the selected legislative requirements.

Other information in the annual report

23. The accounting officer is responsible for the other information included in the annual report. The other information referred to does not include the financial statements, the auditor's report and those selected programmes presented in the annual performance report that have been specifically reported on in this auditor's report.
24. My opinion on the financial statements, the report on the audit of the annual performance report and the report on compliance with legislation do not cover the other information included in the annual report and I do not express an audit opinion or any form of assurance conclusion on it.
25. My responsibility is to read this other information and, in doing so, consider whether it is materially inconsistent with the financial statements and the selected programmes presented in the annual performance report or my knowledge obtained in the audit, or otherwise appears to be materially misstated.
26. The other information I obtained prior to the date of this auditor's report is the annual financial statements and the draft annual report. The MEC foreword and audit committee report are expected to be made available to us after 31 July 2024.
27. If, based on the work I have performed on the other information that I obtained prior to the date of this auditor's report, I conclude that there is a material misstatement of this other information, I am required to report that fact. I have nothing to report in this regard.
28. When I do receive and read the other information, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that the other information be corrected. If the other information is not corrected, I may have to retract this auditor's report and re-issue an amended report as appropriate. However, if it is corrected this will not be necessary.

Internal control deficiencies

29. I considered internal control relevant to my audit of the financial statements, annual performance report and compliance with applicable legislation; however, my objective was not to express any form of assurance on it.
30. I did not identify any significant deficiencies in internal control.

Auditor General

Johannesburg
31 July 2024

Annexure to the auditor's report

The annexure includes the following:

- the auditor-general's responsibility for the audit
- the selected legislative requirements for compliance testing.

Auditor-general's responsibility for the audit

Professional judgement and professional scepticism

As part of an audit in accordance with the ISAs, I exercise professional judgement and maintain professional scepticism throughout my audit of the financial statements and the procedures performed on reported performance information for selected programmes and on the department's compliance with selected requirements in key legislation.

Financial statements

In addition to my responsibility for the audit of the financial statements as described in this auditor's report, I also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks; and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the department's internal control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made
- conclude on the appropriateness of the use of the going concern basis of accounting in the preparation of the financial statements. I also conclude, based on the audit evidence obtained, whether a material uncertainty exists relating to events or conditions that may cast significant doubt on the ability of the department to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements about the material uncertainty or, if such disclosures are inadequate, to modify my opinion on the financial statements. My conclusions are based on the information available to me at the date of this auditor's report. However, future events or conditions may cause a department to cease operating as a going concern
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and determine whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Communication with those charged with governance

I communicate with the accounting officer regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide the accounting officer with a statement that I have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on my independence and, where applicable, actions taken to eliminate threats or safeguards applied.

Notes to the Annual Financial Statements

For The Year Ended 31 March 2024

14.3 Intangible capital assets

Intangible assets are initially recorded in the notes to the financial statements at cost. Intangible assets acquired through a non-exchange transaction are measured at fair value as at the date of acquisition.

Internally generated intangible assets are recorded in the notes to the financial statements when the department commences the development phase of the project.

Where the cost of intangible assets cannot be determined reliably, the intangible capital assets are measured at fair value and where fair value cannot be determined; the intangible assets are measured at R1.

All assets acquired prior to 1 April 2002 (or a later date as approved by the OAG) may be recorded at R1.

Intangible assets are subsequently carried at cost and are not subject to depreciation or impairment.

Subsequent expenditure of a capital nature forms part of the cost of the existing asset when ready for use.

15. Provisions and Contingents

15.1 Provisions

Provisions are recorded in the notes to the financial statements when there is a present legal or constructive obligation to forfeit economic benefits as a result of events in the past and it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate of the obligation can be made. The provision is measured as the best estimate of the funds required to settle the present obligation at the reporting date.

15.2 Contingent liabilities

Contingent liabilities are recorded in the notes to the financial statements when there is a possible obligation that arises from past events, and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not within the control of the department or when there is a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation or the amount of the obligation cannot be measured reliably.

15.3 Contingent assets

Contingent assets are recorded in the notes to the financial statements when a possible asset arises from past events, and whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not within the control of the department.

15.4 Capital commitments

Capital commitments are recorded at cost in the notes to the financial statements.

16 Unauthorised expenditure

Unauthorised expenditure is measured at the amount of the confirmed unauthorised expenditure.

Unauthorised expenditure is recognised in the statement of changes in net assets until such time as the expenditure is either:

- approved by Parliament or the Provincial Legislature with funding and the related funds are received; or
- approved by Parliament or the Provincial Legislature without funding and is written off against the appropriation in the statement of financial performance; or
- transferred to receivables for recovery.

Unauthorised expenditure recorded in the notes to the financial statements comprise of

- unauthorised expenditure that was under assessment in the previous financial year;
